in Agency Auditorium FILE LIGHT FOR 3. Acting Director of Logistics Ames Center Building TO: (Officer designation, room number, and building) RECEIVED FORWARDED The mockup referred to in paragraph 4 would consist of putting a series of lights on stands in approximately the same positions which the might be permanently mounted, if found suitable, and providing a temporary platform for the camera in the approximate position in which we expect it will be finally placed. This mockup would not do violence is any way to the Auditorium, and we find the supposition in which we suppose the finally placed. This mockup would not do violence is any way to the Auditorium, and we find the supposition in which we suppose the finally placed.	R	OUTING	G AND	RECORL	
Ames Center Building TO: [Officer designation, room number, and building] 1. Deputy Director for Support 2. The mockup referred to in paragraph 4 would consist of putting a series of lights on stands in approximately the same positions which the might be permanently mounted, if found suitable, and providing a temporary platform for the camera in the approximate position in which we expect it will be finally placed. This mockup would not do violence in any way to the Auditorium, and we in that it would provide a realistic enor setup in which a test film could be made and judgment rendered as to whether or not the "experts" proposals, if implemented, would meet our needs.
